How to use DVAuction, Inc

Create New Account

Click 'Create New Account' on the homepage and fill out the form with Contact Information (including email and password), Time Zone, and Language Preferences. Read the Terms and Conditions, and if you agree to the Terms, then accept the Terms and Conditions (click checkbox) and click Submit.

Activate Your Account

After successfully registering, you will receive an email with a link provided to activate your account. Click on the link or copy and paste the link into your web browser. You must activate your account before you can login and view a sale.

Editing Contact Information

To change or update your Account Information/Settings, click My Account on the Homepage. You will then be able to change Contact Information, Bank Information, Login Information (email/password), and/or Account Settings (Email notifications, Time Zone and Language preferences).

Apply to Bid

There are several ways to apply for bidding. On the homepage, there will be a button for each upcoming event. There is also a 'Apply for Bidding' link available while viewing a sale.

Consignors Tommy Clark, Caleb Testerman, David Clark, Jim Johnson and Daren Statler

Online Bidding

Frequently Asked Questions

Is the auction platform mobile friendly?

Yes, the auction platform and entire site is mobile friendly. So, no matter the device (computer, cell phone, tablet, etc) you are utilizing to view and/or bid on the auction, the site is responsive to your screen, so you have the most optimum viewing and bidding experience.

How do I get a bidder number for the auctions?

There are no bidder numbers utilized on this auction platform. Each user will have one account under their email address (using the password you set up when you registered) that can be utilized for all auctions.

Why is a credit card required to bid?

We require each user to post a credit card verification to ensure that each of our bidders is a valid, qualified bidder. This verification method has been implemented for the protection and security of each of our bidders. Each bidder knows that all bidders are valid and that they have met the same requirements that you have to be able to bid online. The credit card verification process is completely secure and PCI compliant. Please see the Terms and Conditions segment for more details or contact us for validation if you have concerns.

How do I bid?

Select the JMAR Genetics and Guests Auction. When the bidding for the auction is open, you will have the opportunity to enter your bid (and your maximum bid) for each animal. Simply login to your user account and click on the Bid button for each lot to submit the bid(s).

How do I know if I am winning if there are no bidder numbers shown?

If you are watching the auction via a computer or via your mobile device, when you are winning the screen will show this message: You are winning! in green on the lot(s) you have the high bid on. If you get outbid, the message will change to: You have been outbid.

How do I know if I got outbid?

If you get outbid on any lot within an auction, you will receive a notification based on the preferences you set up in your user profile registration. There are two outbid notification preferences you could possibly receive – a text alert sent directly to your cell phone, or an email sent to your registered email address, or both!

If you are watching the auction via a computer or via your mobile device, when you are outbid, the screen will show this message: You have been outbid. If you would like to bid again on that lot, simply click on the Bid button and Place a Bid.

How can I make sure I am seeing the most current bidding information on the screen?

During the bidding process you will not need to refresh your page to ensure you are viewing the most current bidding activity. The auction platform auto-refreshes the page, and the bidding is in real time.

How do I find out more about a posted item?

Contact information for the seller can be found in the sale catalog and also underneath each lot on a particular auction. If you have any questions regarding a specific item, please contact the seller.

What is a Maximum Bid?

A maximum bid is the highest dollar amount you are willing to pay for an item. Here is an example of using the maximum bid feature. If you enter a maximum bid the system will automatically bid on your behalf up to your maximum bid amount. For example, let's assume that you enter a bid of \$2000 on an item and maximum bid of \$4000. If no other bids are placed on that item, you will be the winner at your \$2000 bid. If another bidder places a bid of \$2250 on the item you will now be winning at \$2250 plus one increment level, $\$2250 + \$250 = \$2500$. Your maximum bid is completely confidential and not revealed to the public or viewed by anyone other than you when selecting this feature.

May I raise my Maximum Bid?

Yes, you have the ability to raise and/or lower your maximum bid at any given time while the auction is open for bidding. However, when lowering your maximum, you can not change the maximum bid price to lower than the current winning bid.

What is a Bid Increment?

The bid increment is the minimum dollar amount that the bid must be raised. Bid increments will typically be in \$250.00 increments. You can bid higher than the minimum bid increment (next required bid), or you may enter a maximum bid, but you may not bid in denominations less than the set bid increment.

Call in Bidding.

To bid via the telephone, call the sale day phone or any of the consignors or professional representatives to place call-in bids for the online auction. Everyone will be glad to assist you in the bidding process.

How does the auction end?

The auction will end at 5 pm eastern time or as shown on the DVAuction.com. Please visit the DVAuction.com page to confirm the closing date and time.

This auction will utilize an auto-extend, horse race style closing. With this feature, the bidding will remain open on all items in the auction if there has been at least one bid received on any one item in the auction within the last 5 minutes (or the set extended bidding increment at the time). Once 5 minutes has lapsed without any bidding activity, the bidding on all items will be closed. All lots will close simultaneously.

Please see the examples below – this is a sample and may or may not match the actual ending times.

Example #1:

Auction closes at 5 PM. There is no bidding from 4:55 PM to 5 PM. All lots are declared closed, and the sale ends at 5 PM.

Example #2:

Auction closes at 5 PM. There is a bid placed at 4:57 PM. Auction is extended by 5 minutes. No more bidding occurs. All lots are declared closed, and the sale ends at 5:02 PM.

Example #3:

Auction closes at 5 PM. There is a bid placed at 4:57 PM. Auction is extended by 5 minutes until 5:02 PM. Another bid is placed at 5:01 PM. No more bids are placed. All lots are declared closed, and the sale ends at 5:06 PM.

What is the auto-extend time within the horse race style closing?

The auto-extend time goes into effect once the auction reaches its original ending time. The auction will remain open for bidding on all items within the auction if there has been at least one bid received on any one item in the auction within the last 5 minutes, even if the original ending time has been reached. Extended bidding means that the auction is not declared closed until there have been 5 minutes of inactivity on the entire auction. Each time a bid is placed, it resets the clock timer on the auction back to the high-water mark auto-extend time that is set.

How do I know I won?

If you are the high bidder, DVAuction.com online auction staff will email you to your registered user email address immediately after the auction has ended. This email will inform you that you have won the bid and the purchase price.

If I win, how and when do I pay?

At the conclusion of the auction the owner of the lot purchased will give you a call confirming you purchased their lot and arranging payment. After confirmation they will invoice you via email. Payment is expected within 2 weeks of the purchase date.

JMAR Jehovah 8M11

M951993 *Homozygous Polled*

1

Dam

His Dam is the 2020 #1 TSI Cow in the Charolais Breed

(8M11) ↑

sire: FTJ Monticello 1806

mgs: WCF Mr. Silver Gun 467

Birth Date: 4/17/2021

CE	BW	WW	YW	M	MCE	MIL	SC	UDD	TEAT	CW	REA	FAT	MB	TSI
5.7	0.5	73	152	21	12	58	1.4	1.31	1.18	45	.79	.036	.38	299.8

JMAR Jehovah 8M11 has to be one of the most exciting bulls we've ever offered. He's the #2 TSI bull to sell this spring and #1 with a bw under 1.0. He does an exceptional job of balancing traits from moderate bw to top 1% YW, 1% Marbling and 1% TSI. His dam was selected privately from Doll Charolais in 2020 and soon after became the #1 TSI cow in the breed. She traveled from ND to VA, flushed 15 embryos and bred right back to have Jehovah. She's really done everything we've asked her to do. Jehovah weaned heavy, but then picked up speed to a yearling weight of 1507 and a ribeye area of 17.5 in. He puts all that into an extremely attractive, sound and eye appealing package. We feel like Jehovah comes as close as any Charolais bull we've encountered of balancing tremendous EPD's from birth to carcass, eye appeal and maternal.

Retaining ¼ Semen Interest with the option of adding 25% to your purchase price and owning Jehovah in his entirety.

JMAR Jubal 5P01

M953191 *Homozygous Polled*

2

Sire

Dam

sire: Pleasant Dawn Chisum 216A

mgs: VPI Free Lunch 708T

Birth Date: 3/19/2021

CE	BW	WW	YW	M	MCE	MTL	SC	UDD	TEAT	CW	REA	FAT	MB	TSI
6.8	.1	64	127	30	8.1	62	1.4	1.21	1.19	35	.72	.018	.31	274.4

JMAR Jubal 5P01. Where do we even start? He's the first and only son of the now deceased Pleasant Dawn Chisum 216A to sell in the U.S. to date. When exploring outcross pedigrees that fit our breeding philosophy, we landed on Pleasant Dawn Chisum out of Canada. One of the more highly proven big spread bulls in Canada that is also top 1% for marbling. When we found out there was very little semen left for sale, we bought it all. Jubal is the first product of that purchase. After seeing him we wish we hadn't sold so much of that semen we purchased. Jubal is so deep flanked and soft made, with a very long deep muscle pattern. He's huge scrotaled, big footed and moves effortlessly. He blends big spread and carcass performance from Canada with big spread and carcass performance from the US into a cool unique herd sire prospect. We feel like Jubal has a bright future, especially if the Canadian data gets blended with the US data. His dam is a crowd favorite with whoever visits with a very nice udder. Retaining ¼ Semen Interest with the option of adding 25% and owning 100%.

JMAR Jericho 1C721

3

M953722 *Homozygous Polled*

\$92,000 PVF Ridge 7142

¼ Brother to Jericho and sire of Ridge

Dam at 10 yrs old

sire: Schurrtop Channel 430Y P

mgs: PVF CAD 0731 Pld

Birth Date: 3/3/2021

CE	BW	WW	YW	M	MCE	MIL	SC	UDD	TEAT	CW	REA	FAT	MB	TSI
81	-4	73	131	16	9.4	52	1.5	1.17	1.15	31	.67	.010	.22	272.6

Jericho is the true cow man's kind of bull. Great feet, muscle, fabulous disposition, longevity, fertility, performance and balanced EPD's from birth to carcass are all attributes of JMAR Jericho 1C721. His recent ultrasound displayed a whopping 17.25 in ribeye while still boasting a 3.6% imf with 126 ratio. His dam is 11 years old while still maintaining great feet and a solid udder. She has an average weaning ratio of 104 on 8 calves. 1C721 is a ¼ brother to the sire of the \$92,000 PVF Ridge 7142. If you're looking for an outcross bull from proven genetics and tremendous data, look no further. Retaining ¼ interest with the option of adding 25% to the purchase price and owning 100% of Jericho.

TNT Range Fire J02P

M956466 Polled

J02 is a "who's who" of pedigree. This bull is thick! Nice square hip, wide top, and attractive head. His sire M6 Gridmaker 104P now has almost 6,000 progeny recorded in AICA! He has been one of the most accepted sires all over the globe. J02's dam is an ET calf out of our donor LT Athena's Treasure 6188. Originally from the Lindskov-Thiel herd in SD and also Wright Charolais in MO before we purchased her. 805 is sired by the former National Champion bull TR PZC Rapid Fire 9775. 805 has bred back to A.I. each year showing consistent fertility. J02 is a solid bull to mate with your registered herd or cross to make those high selling smokes.

sire: M6 Gridmaker 104 PET mgs: TR PZC Rapid Fire 9775 ET Birth Date: 2/23/2021

6**TNT Anthem J09 P**
M956379 Polled**Testerman Charolais**
Caleb & Ashlee Testerman

Unique, outcross pedigree in a stylish package. These are the first sons to sell out of one of the hottest new bulls in the breed, Leachman Anthem P022G!

648 True Road
Hinton, WV 25951
304-445-8382

Anthem's spread from birth, weaning, and yearling is unparalleled. J09 is backed by proven donors on his dam's side. His 13 year old dam still has a beautiful udder with excellent suspension, teat size, and structure. His maternal Granddam, BARA Ms Mac 8K ET, came from Bill Artlitt in Texas, she was a donor for Crews farms, and Muncy Charolais. The CR Miss Duke 172 has 50 progeny on record with AICA and was one of Creighton Ranch's top females. J09 packs all that history into a complete package. He looks good from all angles and boasted a 1369 lb adj. yearling weight! He is Top 5% on WW and YW EPDs. This is a fresh look combination of classical and modern genetics.

**sire: Leachman Anthem P022G**

7**TNT Anthem J10 P**
M957368 Polled

Powerful, thick with lots of middle is how I would describe J10. He gets it honest from his Dam, BPC NANCY CR BX14. She is one of the soggiest cows I have ever laid eyes on. We selected her from the M6 Ranch in TX to be our donor and is now co-owned with Desco Charolais. She has added dimension to all of her progeny and is a high milking female. Unfortunately, we just recently lost her this winter making this her last natural progeny. J10 has solid EPDs with a 270 TSI putting him in the top 6% of the breed. Great feet on both of these Anthem calves, they are easy to handle in the lot and chute.

Large scrotal and high fertility. He is a bull we feel we will regret not keeping for ourselves.

**sire: Leachman Anthem P022G** **mgs: Cooley Royce 1107T39** **Birth Date: 5/3/2021**

Desco Essential Business 23 P

M949480 *Homozygous Polled*

Desco Charolais
Daren Statler
717-729-6453

www.descocharolais.com

If you are in search of Calving Ease (top 10%) and Marbling (top 4%) here is your herd sire! This guy has his daddy's thickness, width and moderate frame. His dam the 865 cow has been an above average embryo producer for us and her calves are consistently attractive with performance. This is her first natural calf and she did a great job with him. David Clark sold a maternal sib in the Fall 2021 JMAR sale that went to Alta Genetics for \$7750. We sold a yearling full sister to him to Victoria England for \$5500. This guy started looking and acting like a bull at a young age, indicating he has very high testosterone levels. If you have Essential Business to be done at you ranch, this guy would be ready for work come rain, snow, sleet or pandemic! This bull has tremendous abdominal capacity and he is docile.

This one's going to sting a little. 6M71 is a full sister to the \$31,000 JMAR Hosea 2M70, selected by Rennert Ranch and Cody Cattle Company out of last year's sale. We then sold her dam to Ankony but insisted we keep her heifer calf. 6M71 spent the summer with her dam at Trans Ova, therefore, we had to ratio her individually from the group, but she still excelled and gets better every day. She scanned over a 12-inch ribeye and a tremendous 5.30 % imf. Like her brother, she really does just do it all. Fantastic numbers, great carcass, feminine, attractive, deep bodied and sound, with a great disposition. She sells open and we would like to retain a future flush at the buyer's convenience and at our expense.

18

The last available sister to the popular JMAR and Eggleston herd sire JMAR Benaiah 1E66 and she's obviously the last for a reason. Super productive female with great numbers and a fabulous udder. Her first two heifer calves have averaged \$2025 in our fall sale. We are retaining her Monticello heifer calf. Due 9-11-2022 to FTJ Monticello 1806 sexed as a bull

It's rare to ever get an opportunity to purchase a female from the renown Grau herd in NM but even rarer to have the opportunity to purchase a female like this. Beautiful female with tremendous eye appeal. The hard work is done, we got her to the east coast, the opportunities are boundless. Complete outcross pedigree, super stylish and goosey fronted. Mate her to an outcross sire or make some of those super cool Char clubbies.

20**TNT Bella Rose C66 P****F1207803 Polled****Dam**

Bella is the type of cow you can tell a story with; she is sired by the \$245,000 M6 Bells and Whistles and the \$10,000 M6 Ms Duke 645. 645 was a donor for M6 Ranch before we chose her for our own donor pen. She is sired by the immortal WCR Duke 761, and her dam is M6 E46's Duke 248 which is also the granddam of M6 New Standard 842. 248 has 183 progeny all over the world. Bella incorporates that pedigree into a stout package. Huge spring of rib, tidy udder, solid feet, and an excellent temperament. We have kept back a replacement daughter from Bella in the herd. We can't keep them all but if we could she wouldn't be leaving.

Heifer Calf - sired by Leachman Anthem P022G

You can help yourself and help Kansas too with this lot. Every penny you spend for this lot will be donated to the Kansas Livestock Foundation. These funds are then available to Kansas cattlemen devastated by recent wildfires. Keystone Embryo Transfer, LLC will be donating all collection and freezing services making this package all the more valuable. The only extra expense for the lucky buyer will be FSH, semen and shipping costs. You will have to look far and wide to find cow with equal fertility, carcass (top 1% REA and MB), growth, disposition and eye appeal. The buyer gets every embryo produced in their choice of the May or June flush (in vivo). We will guarantee 5 number one embryos, or you will be refunded accordingly by percentage. She has averaged 11.3 embryos per flush on 7 collections since June 2021. The preg rate on her fresh and frozen embryos (good, fair and poor-quality embryos) is 25/32.

It is only because of the prolific performance of 7548 and the 25 ET calves here and on the way that we are offering this Gold Standard daughter. We know that fertility is very transmittable in cow families and this girl has a stacked deck in favor of fertility! She is very docile and has performance carcass and eye appeal to wrap up the package. She is in the top 10% of the breed for 7 EPD traits. On the top side, Gold Standard himself is 11 years old and has bred a set of cows this past summer. Galen describes the bull as "the best bull we have ever worked with in any breed". Keep your eyes on this stacked deck of genetic cards!

Jim says this is the magic sire stack? This is the natural calf of one of the first Benaiah daughters and came to Desco for our Marbling strategy. This lot's 0.44 MB EPD will be an asset to any breeding program. She had a very low birth weight and yet took off with growth and muscle development and now has a unique package of carcass value with a show ring competitive eye appeal! Her maternal brother is Lot 9
